## Washington Project for the Arts Announces Artists and Schedules for Experimental Media Series

**WASHINGTON, DC, September 16, 2009**—Washington Project for the Arts is pleased to announce the participating artists for the fifth annual *Experimental Media Series*, a multi-evening screening of innovative international video and sound art selected by **Kelly Gordon**, Associate Curator at the Hirshhorn Museum and Sculpture Garden.

Since 2006, the *Experimental Media Series* has showcased the talents of artists working in sound and video art. Choosing to jury this year's program without an overlying theme, Gordon says, "This selection is robustly diverse in style, approach, use of medium, age of artists, geographic area represented, and experience level. They are linked only by my definition of quality." The most compelling entries, as selected by the juror and based on overall quality and innovation, will be awarded the Kraft Prize for New Media and the WPA Experimental Art Prize, two cash prizes of \$750 each, to be presented on October 1 at The Phillips Collection.

**Kelly Gordon** specializes in time-based art. Ms. Gordon organizes the Hirshhorn museum's *Black Box* program and recently co-curated the exhibition *The Cinema Effect: Illusion, Reality and the Moving Image*, which debuted at the Hirshhorn in 2008 and will travel to Spain in 2010.
